

My dearest friend,

I hope this helps you to grow your child's faith. Thank you for downloading this page! I love hearing all about how much this helps you or your child. So feel free to write me or drop a comment. I will be honest, I've even used this one for myself.

Nicoli asked me yesterday if I could make him a prayer journal sheet so he could keep track of his prayers every day now that school started. He wanted to make sure he continued to pray like he did during the summer.
